**TO THE GALLANT JAPANESE OFFICERS AND MEN**

You have fought bravely without the aid of your navy and air force and while suffering from a shortage of food. Fate was against you, however, and you have come to the final stage.

Is a meaningless death the only thing left to you? Why don't you seek the road to a new life and live for the future of Japan?

Your comrades, already under American protection, have recovered their health and are enjoying communal life.

This leaflet is a safe-conduct pass to the American lines. Throw away your weapons and approach the American positions or sentry lines, carrying this leaflet (or a piece of white cloth) on a stick. If you see an American soldier, raise both arms and obey his signs.

One leaflet may be used by a group.
