

**TRANSLATION OF H089, THIS IS A VERY IMPORTANT PUBLICATION...**

(OBVERSE)

This is a very important publication from the Black Watch. Please read the message on the next page.

Thank you for your cooperation.

(REVERSE)

The Black Watch were attacked in the past few days by foreign insurgents and terrorists. The Black Watch is helping the people of North Babylon in resuming their daily lives as usual. We are left with no option other than increasing the security levels for the general welfare of the people.

It is very important that you adhere to the following instructions when approaching a Black Watch vehicle or checkpoint:

1. When approaching the Black Watch, turn on the side lights of your vehicle and be ready to stand if you are asked to do so. You may receive your instructions vocally, with a sign or by a gesture of the hand.
2. Do the above calmly and always keep your arms visible.
3. If you are asked to pass through, do so quietly.

The instructions above are extremely important because the foreign insurgents and terrorists are trying to halt and disturb our lives by their violent actions.

They have killed large numbers of your brothers and sisters and they are still trying to stop your efforts to live in a safe and prosperous Iraq.
