*[Cartoon showing the skeleton remains of a Communist Terrorist laying on a Communist flag in the jungle]*

Save yourself now! Don't hesitate!

Why die in the jungle?

Dying together with Communist murderers will bring disgrace to your whole family and make them suffer.

The government has given you the chance to save yourself by giving up.

You can surrender to any government official or representative, or ask any of your reliable friends to arrange your surrender. Some of your comrades have surrendered and all of them are equally treated properly.

Save yourself now! Don't hesitate!
