**INTERVIEW WITH YEAN AH YING**

1<sup>ST</sup> JUNE 1953. SURRENDERED AT BOON CHEE

Within 24 hours she is in a comfortable first class ward in hospital receiving medical attention.

(REVERSE)

**DO YOU NEED A DOCTOR?**

If you are wounded, do you get good medical treatment? Your answer will unfortunately be none, you can only hope or pray you will get better or die quickly.

The Government treats every member of the Security Forces who are wounded and they receive the best medical care.

Any Malayan Communist who gives a helping hand to the Government, and is wounded, will receive the same medical treatment as the Security Forces.

If you are sick or wounded, you can ask any civilian to take you to the nearest police station or military base.

Run to a public road, stop a motor vehicle and go to the police station.

We can help you, to help yourself.

Come out at once and get medical treatment. Do no delay or it will be too late.
