Just have a look at the photograph above. Do you recognise your old comrades who have surrendered to the Government? They are wise. They have chosen to return to normal life and are being well treated by the Government. See how happy they are. In a short while too they will be celebrating the Chinese New Year.

They will have plenty to eat and drink amongst their relatives and friends in their free life. Will you have chicken and preserved ducks, sausages and all those delicious things too numerous to mention? Where will you get anything to drink except water in the streams.

Just think for a moment of yourselves. For whom do you suffer and sacrifice? After seven long years of struggle what has the M.C.P. achieved? Can your so-called superiors tell you how much longer you have to struggle and when you will have your imaginary glorious time?

Why then suffer and sacrifice for a few so-called superiors who dominate the M.C.P. of whose existence you yourselves are not even sure. Why not follow the example of your old comrades in the photograph above. Come out now and join them. They will be waiting to welcome you.

We are waiting for you now. A HAPPY NEW YEAR!
